**Environmental and Occupational Health and Safety Manual  
INTRODUCTION**

---

**Introduction**

The good health and proper safety of all members of the University of the West Indies, Mona Campus community, together with the preservation of its environment and property is recognized as an area of significance that is in the interest of all to protect. This **Policy & Procedures** manual is being developed for, and will be made accessible to all members of the University community. It provides guidance regarding the steps to be taken to ensure that your health and safety is preserved while working, living or learning on the Mona campus.

As a member of the University community, it is both your right and your duty to become familiar with the contents of this manual. The manual is scheduled for regular review. Your input in this process is critical to the successful implementation of the Safety and Health program at Mona.

Any questions, suggestions, amendments or recommendation that you may have may be directed to the Joint EOHS committee through the Senior Assistant Registrar for Employee Relations, Environment, Compensation and Health & Safety in the Human Resources Management Division, Mona Campus.
