

Microsoft Select Agreement

The Mona Campus has partnered with Microsoft for the Microsoft Academic Select License programme and the [Microsoft Campus Agreement](#) . The latter allows free usage to the entire Campus Community for some Microsoft products. Under the Select programme our constituents may purchase licenses for the list of Items Included in our [Select License programme](#) at costs substantially less than would be obtainable from a typical product reseller. The Microsoft Academic Select License programme allows us to offer the following benefits to you:

- Significant discount over full retail prices based on how much software we expect to license during the agreement term
- Opportunity to get the latest versions of the product through Software Assurance. Software Assurance entitles customers to the latest release of the product over the duration of the agreement period.

Restrictions on Use:

- You may not separate the components of a product made up of multiple components by running them on different computers, by upgrading or downgrading them at different times, or by transferring them separately except as otherwise provided in the product use rights
- Rent , lease, lend or host products except by agreement with Microsoft
- Reverse engineer, de-compile, or disassemble products except to the extent expressly permitted by applicable law
- Transfer licenses to, or sublicense products to the U.S. Government

Product licensed under this agreement may be used only by and for the benefit of an eligible education customer.

Software License

A software license is required for every copy of a Microsoft product installed on the hard disk of a PC, the software should not be copied to another PC without first purchasing another license. Work-at-Home copies require their own licenses ie if you have two computers one at home and another at work you need two licenses. You must acquire and dedicate a license for each separate computer on which the Software Product is installed or run from a server.

Usage Terms

The licenses purchased under the Microsoft Academic Select License programme are perpetual which means that they do not have to be renewed periodically – you can use them until you wish to change.

Purchasing Software

Depending on demand, MITS will hold a stock of particular software items for immediate availability. Otherwise we endeavour to make them obtainable within 48 hours. They are issued on CD-ROM which are duplicated from a master copy. Hardcopy manuals are not included however instructions prepared by Microsoft Press are available and can be downloaded from the intranet

Please Note that in order to make a purchase it is necessary to show your University ID to assert your legitimacy as a University employee or student. Customers should still call to make queries on other software titles as we continuously update our software availability.

To make your purchase contact:

Mrs Yvonne McFarlane
