

UWIMonaNet Dialup User Guide

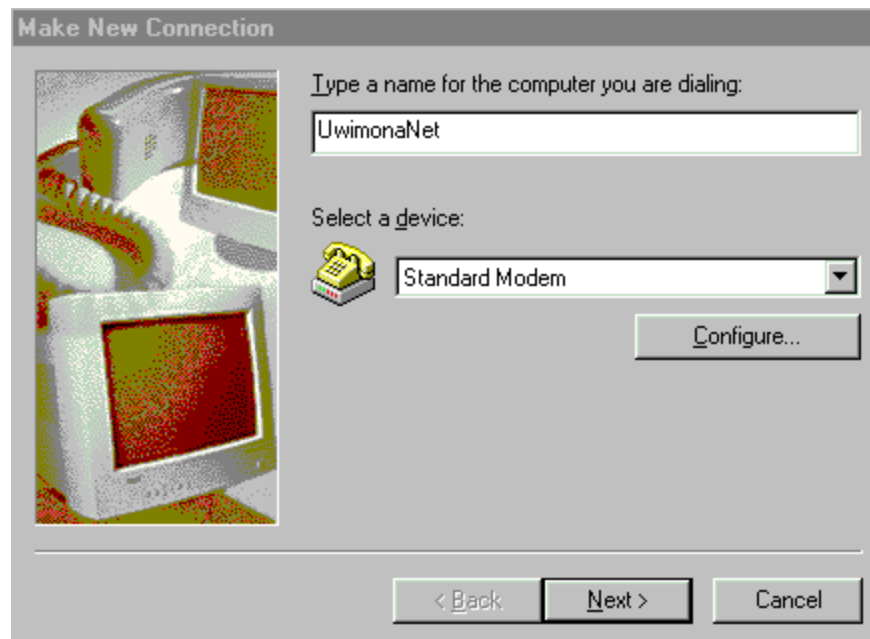

Make a new dialup connection by clicking the **My Computer** icon on your desktop.

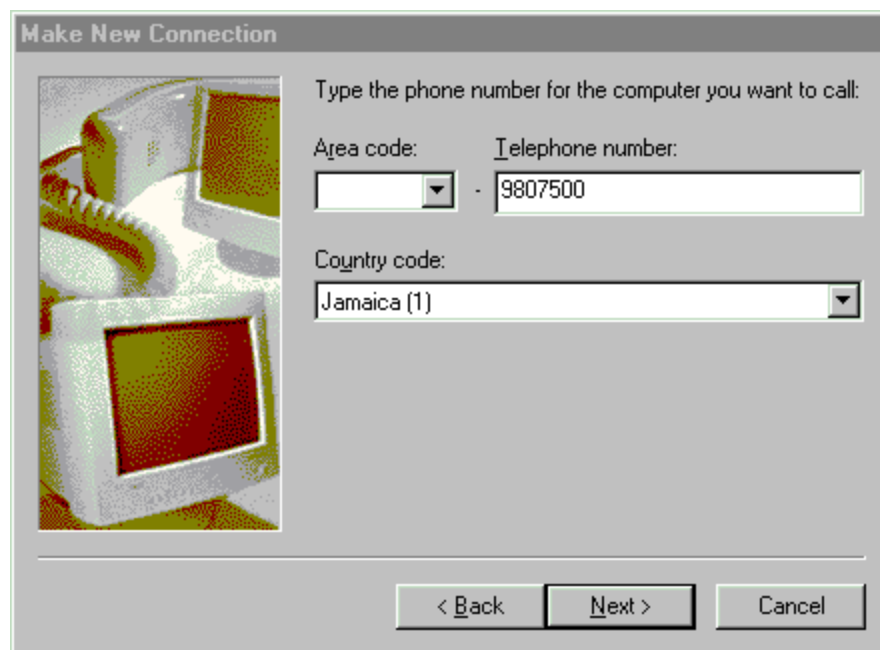

Click **Dialup Networking**, then select "Make New Connection".

This will produce the window below.

Type the name of the new connection. We suggest **UWIMonaNet**. Select the modem appropriate to your installation, then click "Next". This produces the window shown below.

Enter the telephone number of UWIMonaNet's dialup services: **9807500**. Users outside Kingston and St. Andrew should enter **19807500**.

Select "Finish" in the window shown below to complete your configuration.
