

## ENERGY EFFICIENCY AND RENEWABLE ENERGY PROJECT: CAPACITY BUILDING AND TRAINING PROGRAMME

Funded by the Caribbean Electric Utility Service Corporation (CARILEC)

Date: 21& 22 of March 2012

Place of the Workshop: University of the West Indies

### DAY 1

#### TEACHING SEGMENT 1:CDM AND ITS APPLICABILITY FOR THE CARIBBEAN REGION

8:30	<i>Registration</i>
9:00	Welcome & Agenda
9:15	Objectives of the Workshop
9:30	Climate Change Negotiations
10:00	Kyoto Protocol and the Flexible mechanisms
10:30	<i>Coffee Break</i>
10:45	Clean Development Mechanism
12:00	<i>Lunch Break</i>
13:00	Programmatic CDM (pCDM) or Programme of Activities (PoA)
14:30	Applicability of CDM and pCDM for the Caribbean Region
14:45	<i>Stretch Break</i>
15:00	Case studies of CDM projects in the Caribbean Region
16:00	Lessons learn from developing CDM project
16:30	List of do and Don't when developing CDM project
17:00	<i>Close of Teaching Segment 1</i>

Excellence in sustainable energy and climate change consulting

## DAY 2

### TEACHING SEGMENT 2: OTHER CARBON MARKET SCHEMES; AND

### TEACHING SEGMENT 3: CARBON MARKET THEORY

<b>Teaching Segment 2: Other Carbon Market Schemes</b>	
9:00	Overview of other (current/planned) carbon market schemes/mechanisms - namely under the voluntary carbon market
10:30	Facts and figures of voluntary carbon market schemes
10:45	<i>Coffee-Break</i>
11:00	How can developing countries and specially projects in the Caribbean region benefit from these schemes/mechanisms
11:45	Future of the carbon market and expected impacts for the region
12:00	<i>Lunch Break</i>
13:00	Possibilities for RE projects developed in the region to qualify and earn revenue from the sale of carbon credits
<b>Teaching Segment 3: Carbon Market Theory</b>	
14:00	Brief overview of the carbon market theory;
14:25	Potential advantages and disadvantages of carbon markets
14:45	Environmental externalities
15:00	<i>Stretch Break</i>
15:15	Theory of externalities of climate change and market failure
15:30	Policy option for dealing with environmental externalities
16:00	Establishments of the carbon prices from its supply and demand curves
16:30	Issues affecting the supply and demand of carbon
17:00	<i>Close of Workshop Day 2</i>
