

NAME: DELVER MARTIN  
COUNTRY: ST. KITTS AND NEVIS

# St. Kitts & Nevis

Island	Size (sq miles)	Population
St. Kitts	68	35,000
Nevis	36	9,000

- Station is located on the airport just north of the runway
- Data recorded from 1972 - PRESENT

# Climate Variables Collected

- Temperature
- Rainfall
- Wind
- Sunshine
- Pressure

# Challenges Encountered

- Missing data for 1997 – 1998
- No Daily data available before 1999 only monthly

This is due to passage for Hurricane Georges in September 1998

- No data is recorded/collected from Nevis
- There is a need for more stations on St. Kitts as rainfall distribution varies widely, decreasing as you move from the northwestern tip of the island to the southeastern peninsular

# Thank You
