FST STEM INITIATIVE

CAPE WORKSHOPS

The Faculty of Science and Technology commenced its CAPE workshop initiative in 2003 with the Department of Chemistry. The workshop was adopted by the Department of Physics in 2007 and the Department of Mathematics in 2013. In 2018, the Departments of Computing, Geography, and Life Sciences joined the initiative.

The Faculty considers the workshops a remarkable opportunity to provide resources and motivate students and their teachers to embrace science as well as to consider pursuing it at The UWI.

Total Student Participation: 2015 - 2021

CAPE UNITS 1 & 2: **11,094**
