Module 2

Protocol and Diplomatic Law: Rules and Procedures

March 9th - 13th, 2015

Jamaica
About The Diplomatic Academy of the Caribbean

The Diplomatic Academy of the Caribbean is a new and innovative training centre in Modern Diplomacy for Diplomats and other professionals in the Caribbean and beyond.

Modern international relations and diplomacy exist within a continuously evolving platform of change. In order to be most effective, the instrument of diplomacy requires continuous updating via ongoing learning, training and development.

While the basics of diplomacy remain, namely the pursuit of foreign policy objectives and state interests, this activity today occurs beyond the national level, into the realm of regional and global interests and objectives.

The Academy meets a clearly felt need, in the absence of any proper training and learning facility regionally, to offer programmes in diplomacy at various levels and on diverse subjects relevant to the 21st century socio-political and economic environment.

The result of a cooperative arrangement between the Government of the Republic of Trinidad & Tobago, via its Ministry of Foreign Affairs, and The University of the West Indies through its Institute of International Relations, The Diplomatic Academy will be initially established on a two-year project basis but will continue to exist as long as there is a demand for such a training facility.

The Diplomatic Academy of the Caribbean, the first of its kind, reaches out to a cross-section of target groups and beneficiaries, involved in one way or another in international cooperation, negotiations and transactions - in the CARICOM region and beyond.

The Academy will pursue partnerships with a number of prominent and renowned diplomatic academies and schools of international affairs from various parts of the world.

While it is an integral part of The University of the West Indies (UWI) and its Institute of International Relations (IIR), The Diplomatic Academy of the Caribbean has a separate identity, mandate, programme, staffing and budget.

Target Group

National and regional governmental and non-governmental officials involved, or likely to be involved in protocol matters, and in the functions of protocol training, including HR Personnel. This training module is targeting in particular persons who, by their very functions, have to treat with foreign visitors and guests, including diplomats, Business Executives, and high level NGO Representatives and Military Personnel.

Methodology

Protocol and Diplomatic Law: Rules and Procedures is a “Training of Trainers” Module. It is aimed at transferring not only knowledge and aptitude, but also seeks to introduce participants to necessary training technology by equipping them to initiate and conduct training actions at the required level of their respective departments, units, and organizations. The goal is to produce a multiplier effect over time and over future trainees. The module will be conducted via hands-on, practical exercises through case studies and simulations. Interactive discussions with experts and among participants will be encouraged.

Completion Requirement and Certificate

A certificate from the Diplomatic Academy of the Caribbean will be awarded upon satisfactory completion of a given written or oral assignment at the end of each module.
Background

Diplomatic Protocol, as an art and science, has always been intrinsically linked to the practise of Diplomacy and the peace between nations. It remains a fundamental component of Diplomacy, especially in a more and more globalized and interconnected world. Flows of information and communications are increasing, cultural exchanges are booming and the number of official State visits between countries is unprecedented. Therefore, the modern diplomat of the 21st century must master the codes, rules and processes of Diplomatic Protocol in order to be performant and adaptable to any situation.

Learning Objective

This module aims at:

Providing participants with knowledge and understanding of basic principles governing: host-country protocol and specific protocol issues and processes.

Transferring appropriate training actions regarding the conventions of protocol codes of behavior.
