Social Innovation & Volunteerism (SIV)

Get involved! ... your holistic development is
important to your success!

Please speak to your *Resident Advisor* to
find out how you can become involved in these programmes.

First Year Experience

The UWI puts great value on each student, and the first years are no exception. The first year student is exposed to a myriad of activities through the first year experience programme (FYE) that is designed to help students successfully navigate through their first year at the UWI.

Second Year Experience: Leadership Development

The UWI is the hub of many leadership initiatives and activities aimed at grooming the next generation of leaders. Our leadership programme will help students realize their true leadership potential.

Challenge yourself to be extraordinary, join us and position yourself for local, regional and international leadership opportunities.

Third & Final Year Experience

Students are directed to the Career Development Programme offered by the Office of Student Services & Development.

Social Innovation & Volunteerism

This programme is geared towards giving students the opportunity to play their part in solving social problems in their community. The programmes also allow students to volunteer their time, effort and resources to assist under-served and disenfranchised groups and build awareness around social issues affecting the communities in which they live and study.

Wellness, Environment & Safety

This programme is for the young, conscious student who understands the importance of balance and wants to build awareness and adapt best practices around wellness, preserving the environment for present and future generations and to help maintain safety and security on the campus through corrective or preventative measures.
