

SPECIAL IN LANGUAGES AND LINGUISTICS

Foreign language study is naturally allied to the field of Linguistics. The Special in Languages and Linguistics is intended to produce graduates who can work in international organisations and global contexts with the advantage of knowledge of one or more Modern and/or Caribbean vernacular languages, as well as their contexts of use and communicative value. The programme is a combination of Modern languages, Caribbean languages such as English, Haitian Creole, Jamaican Creole and Caribbean Sign Language, with Linguistics courses in the structure of language (Phonology and Syntax, up to the advanced level).

The **Special in Language and Linguistics** requires a minimum of 66 credits.
