

## **Students Advance to the First Round**

The University of the West Indies has completed the Qualifying Round of the 2016 Jamaican Mathematical Olympiad. A total of 1,549 students entered this round, which began on November 17, 2015. These students came from 63 high schools across Jamaica. After assessing the papers, the Department of Mathematics has determined that 1,333 students are qualified for the First Round. This round will be held on January 16, 2016, from 11 am to 12:15 pm. The venue is the Tent, located near the Post Office Gate to the Mona Campus of the UWI.

A complete list of students advancing to the next round begins on the next page. Students' names and grades are listed under the schools they attend.

The following information is provided for those students who have qualified for the First Round examination:

1. Students should enter campus through the Post Office Gate. For the Tent, turn right at the first intersection.
2. Students should bring pens for writing and, if they choose, white-out or a similar substance. Students will not need writing paper, calculators, geometry sets, or any other materials.
3. There will be two question papers administered, one for students in Grades 7 and 8 and one for students in Grades 9, 10, and 11. Each paper will consist of 4 multiple-choice questions and 6 written-answer questions. The time allowed will be 75 minutes.
