THE BEST OF CSOD

HIGHLIGHTS OF CSOD INITIATIVES

MESSAGE FROM THE CSOD PROGRAMME DIRECTOR

"As the CSOD Programme comes to the end of the successful "Skills for the Future" Partnership with FLOW Foundation, we are excited about several upcoming partnership initiatives as we continue our mission to increase employability through digital and data literacy and building a stronger data culture across the Caribbean. Stay tuned for more information on our partnership with the Humanitarian OpenStreetMap Team (HOT)."

Leading from Behind!

Cherika Wilson has been the project manager for the CSOD partnership with the FLOW Skills for the Future Program. Cherika has quietly mobilized, organized, and led a dedicated team of Facilitators in a vital enabling role across multiple CSOD cohorts. She has also been instrumental in negotiating various Community Partnerships and a new exciting upcoming CSOD partnership with Humanitarian OpenStreetMap (HOT).

Cherika Wilson
Project Manager, CSOD

The Technical Support Team behind CSOD

The CSOD Platform (http://coi-csod.org) not only enables fully virtual or blended learning delivery of our customized digital training content, but it also provides a social learning community supporting CSOD students and their facilitators. Lorenzo and Omar are the Technical Support team behind the CSOD Platform.

Behind the Scenes

Meet our Facilitators

CSOD Facilitators are the backbone of the programme. They work directly with our participants, providing support and maximizing the effectiveness of course delivery.

We appreciate you!

We would like to thank all our
sponsors and stakeholders for their input in the
success of all CSOD projects.

We look forward to another great year of
opportunities that continue to positively impact the
lives of Caribbean people.

Thank you!
