October 6th, 2008.

Dear University Colleague:

The Disaster Risk Reduction Centre (DRRC) is compiling information on the teaching and research undertaken by departments/units/centres on the three campuses of the University of the West Indies in the areas of natural hazards and disaster management. One of the mandates of the DRRC is to provide leadership that drives the rationalization, integration and development of all initiatives in hazard and disaster management within the University. In order to fulfill this mandate it is important that the Centre is aware of the teaching and research work being undertaken in these areas by the various departments/units/centres on the Cave Hill, Mona and St Augustine campuses. The Centre is asking you to kindly cooperate by completing the attached questionnaire below and returning to: Director, Disaster Risk Reduction Centre, The University of the West Indies, Mona, Jamaica or email to trevor.jackson@uwimona.edu.jm before October 31st, 2008.

I look forward to your cooperation and assistance.

Yours sincerely,

Professor Trevor Jackson
Director
THE DISASTER RISK REDUCTION CENTRE
QUESTIONNAIRE

NAME OF DEPARTMENT/UNIT/CENTRE:

TEACHING

1. UNDERGRADUATE:
   a. List any courses and course titles that are offered by your department/unit/centre that contain a natural hazard or disaster management component.
2. POSTGRADUATE
   a. List any courses, course titles and programmes that are offered by your department/unit/centre that contain a natural hazard and disaster management component.

   b. List any graduate students who are/have engaged in natural hazard or disaster management-related research. Provide names and titles of theses/reports.

   STAFF RESEARCH

1. List the names of members of academic staff in your department/unit/centre who are engaged in natural hazard and disaster management research and the specific area(s) in which their interest lies. Provide the titles of any reports/articles that have been published over the last 5 years on the topic.
Kindly return the completed questionnaire to: Professor Trevor Jackson, Director, Disaster Risk Reduction Centre, The University of the West Indies, 13 Gibraltar Way, Kingston 7, Jamaica or email to trevor.jackson@uwimona.edu.jm
