Direct Loan Program
U S Department of Education

August 2023

COST OF ATTENDANCE WITH DESCRIPTORS

The following information include descriptors used by The University of the West Indies, Mona in support of information provided in its Cost of Attendance report with effect from the 2023-2024 academic year. The information below has been provided using policy documents as well as consumer pricing reports and market trends for consumption in Jamaica.

❖ **Tuition: -**

Tuition Fees are determined based on the economic operational cost to facilitate respective programmes and the revenue needed to ensure the economic viability and operation of the programme. These fees are reviewed each year and are approved by the Council of The University of the West Indies. The Tuition Fees for the 2023-2024 academic year may be accessed at <https://www.mona.uwi.edu/content/check-fees>

❖ **Accommodation: -**

Accommodations fees are compiled and collated through a series of consultations, where they are approved by the Campus' Finance and General Purpose Committee before the start of each academic year. The range in the fee is as result of the varying facilities available on our Halls of Residence which results in a different pricing structure for each hall. Accommodation Fees for 2023-2024 may be accessed at <https://www.mona.uwi.edu/content/check-fees>

❖ **Miscellaneous Fees: -**

Miscellaneous Fess are due and payable by all students, and are billed separately from tuition fees. This fee is non-refundable. As suggested in the nomenclature, this fee is charged to offset expenses that are not covered otherwise by tuition charges and is used to offset the following operational costs: - sports fees, library fee, health insurance, Guild and Hall of Residence attachment fees etc. Miscellaneous Fees are approved by the Campus' Finance and General Purposes Committee before the start of each academic year. The Miscellaneous Fees may be accessed at <https://www.mona.uwi.edu/content/check-fees>

❖ **Computer/Tablet Purchase: -**

As per current market standards, and using the authority of credible electronics dealers such as Dell Incorporated, the unit price as quoted is found to be reasonable and suitable for acquiring a suitable computer.

❖ **Books, Printing and Educational Instruments: -**

As indicated by the differences in the unit prices of books, the price of books and other educational instruments differ across faculties, but more specifically, academic disciplines. The information received from past and current students as well as based on the pricing of books in our University Bookshop and online resources view the averages presented as reasonable.

❖ **Transportation: -**

The cost of public transportation is set and regulated by the Government of Jamaica via the Ministry of Science, Energy, Telecommunications and Transport. For students who reside on a Hall, the cost of transport would be significantly less than for students who commute due to the fact that the University has the convenience of most, if not all the required amenities on the Campus. The cost for transportation for commuting students is understandably more because of the exigencies and distance from which they travel to the University for classes on a daily basis. Based on the fact that international students that do not reside on Campus tend to remain in a common geographical space within close proximity to the Campus, the averages presented can adequately cover this expenditure for the period of study.

❖ **Meals, Groceries and Personal Expenses: -**

As indicated in the schedule, the quoted amount was found to be reasonable as is supported by the **Annual Consumers Report, published by the Consumers Affairs Commission**, an agency of the Ministry of Industry, Investment and Commerce. The amounts presented have been adjusted to incorporate for inflation over the last three years as well as to recognize the dietary preference of University students based on our observations.

❖ **Dependent Care: -**

The nominal figure as quoted is USD\$125 per week and is reasonable amidst data gathered from the Ministry of Labour and Social Security as it relates to the current minimum wage levels. This average factors in, from a conservative perspective, the required hours needed for dependent care (as a result of lectures, tutorials, lab hours, group meetings, library/assignments) and the possible increase in wages for the upcoming year.

❖ **Entertainment: -**

Using an average of US\$50 per month, this allocation will be able to provide avenues for reasonable forms of entertainment. Importantly there are many social events on Campus that are covered in the Miscellaneous Fee.

COST OF ATTENDANCE

Undergraduate Programmes
