During the course of the year staff worked on the restructuring of the School of Education, building on the contribution to the process of Professor Elsa Leo-Rhynie in the previous year. Consensus was reached on the establishment of an Executive Committee, an Advisory Board and Standing Committees responsible for support systems, quality assurance, marketing and research and projects. A Five-Year Strategic Plan (2007-2012) was completed, focusing on the key areas of Teaching and Learning, Graduate Studies, Quality Assurance, Strengthening National Engagement, Research and Innovation, and International Partnerships.
TEACHING AND LEARNING

Online programmes

In the Department of Educational Studies (DES), Education enrolment 2008-9 stood at 438. The strongest programmes were Literacy Studies, English and Maths.

Joint programmes with TLIs

The DES collaboration with Bethlehem Moravian College to deliver the B.Ed in Literacy Studies has been finalized and will begin in September 2009.

Curriculum Development

The DES has completed a joint degree in History and History Education with colleagues in the History Department. The Department has also prepared for early delivery a primary degree programme in Maths and Science. Initially this will be offered to Grenada with World Bank funding.

QUALITY ASSURANCE

Staff of the Institute of Education (IOE) and the Joint Board of Teacher Education (JBTE) continued to provide quality assurance and institutional strengthening support services to teachers’ colleges in the Western Caribbean.

Activities in the Western Caribbean

Belize

Dr. Marcia Stewart represented the JBTE at a meeting of the Belize Board of Teacher Education in November 2008.

Cayman Islands

Dr. Clement Lambert and Professor Hyacinth Evans visited the Cayman Islands in March 2009, to lead the final year teaching practicum exercise of the University College of the Cayman Islands (UCCI). They presented a workshop on “Course Development” for college staff.

Turks and Caicos Islands

Dr. Moses Peart and Dr. Mairette Newman served as team leaders of the external examiners panel of the Turks and Caicos Islands during March, 2009.
Jamaica

Dr. Marcia Stewart and Professor Stafford Griffith presented workshops to representatives of the Consortium of Institutions for Teacher Education (CITE) to facilitate their efforts to achieve a smooth articulation of the three year college diploma programme into the programme of the CITE add-on year leading to the Bachelor of Education Degree.

Activities in the Eastern Caribbean

The JBTE, Mona and the JBTE, Cave Hill have agreed on a faculty skills sharing arrangement to provide programme development support to countries within the respective JBTE western and eastern territorial boundaries. Antigua is the first official beneficiary of this arrangement as faculty from the IOE, Mona Campus provided leadership to develop two new associate degree programmes for offer at the Antigua State College. Ms. Joan Tucker, recent retiree of IOE, provided leadership to develop the Associate Degree in Music Education, while Dr. Rose Davies led a team comprising Dr. Marcia Stewart (JBTE) and Dr. Christopher Clarke (Shortwood Teachers College) to initiate the process of developing the Associate Degree in Early Childhood Education.

Other Regional /International activities

Dr. Marcia Stewart continued to contribute to the work of the CARICOM Task Force on Teacher Education’s council to establish standards for teachers across the region in order to facilitate free movement of labour under the CSME. She was co-presenter of the standards document which was tabled at the COHSOD meeting held in Jamaica in June, 2009.

STRENGTHENING NATIONAL ENGAGEMENT

In keeping with the School of Education’s thrust to increase public engagement on national issues in education, the IOE played a lead role in planning and implementing a School of Education Public Forum entitled “GSAT: Road to Success?” The forum was held at the Kingston YMCA, on February 24, 2009. Panel presenters included Professor Stafford Griffith (IOE), Dr. Christine Roomes, (Church Teachers College), and Ms. Jean Hastings, (Ministry of Education).
During Education Week in May, a symposium was held on *The Grade 4 Literacy Test – Certifying What?* with presentations by Mrs Ruth Morris, Senior Director, Human Resources Modernization Unit in the Ministry of Education, Dr Paulette Feraria and Dr Susan Anderson. Apart from academic staff, students from Papine and Mona High Secondary schools and Rollington Town Primary School attended with their parents. A seminar on *The best research conducted by graduate students in 2007-2008* was also held. Presentations were made by Dr Hixwell Douglas, Dr Carmeneta Jones, Ms Mishelle Robertson and Ms Cecille Young. Both Dr Hixwell and Dr Jones were awarded their PhDs with commendation. The key event was the Forum held on May 7 on the theme *Tertiary Education at the Crossroads*. The keynote address on “The role of tertiary education in national development” was delivered by The Most Honourable Professor Sir Kenneth Hall, Honorary Distinguished Fellow. Prof. Ishenkumba Kahwa, Dr Carol Archer from UTECH, Ms Jean Hastings, Executive Director of the Education Transformation Programme, Dr Samuels-Harris from the Montego Bay Community College, Ms Cheryl Foreman of the St Joseph’s Teachers’ College and Mr Steven Kerr of the PIOJ were members of a panel on Perspectives on the Role of Tertiary Education in National Development. The panel on Financing Tertiary Education included Prof. Alvin Wint, Mr. Danieto Murray of NCU, former Minister of Finance, Mr Omar Davies and Mr Vishwanauth Tolan, the UWI Guild President.

One of the strategic objectives of the School of Education’s Strategic Plan for 2007-2012 is the development and offering of short professional development courses that may be accessed by teachers and allied professionals for the purpose of professional re-certification. In responding to this objective, the IOE offered a seven-day workshop from July 2-10, 2009 on “Teaching Mathematics at the Early Childhood and Primary Level,” with guest presenter, Professor Dionne Cross, from the Indiana University, USA. The overall evaluation of this workshop by the 22 participants was very positive.

PROJECTS & DEVELOPMENTAL WORK

Dr Susan Anderson and her final year undergraduate students have mounted another summer pilot programme/two week summer camp for fifteen at-risk students of the Papine High School.

Dr Beverley Bryan contributed to UNESCO’s mid-decade UNLD report to the United Nations General Assembly on the impact of the decade on literacy world-wide.

In collaboration with the Adolescent Project of the Ministry of Health and the Environment and with funding from UNICEF, Mrs. Paulette Chevannes conducted research in 16 schools involved in the Change from Within project. The aim was to inform the development of intervention programmes and activities to promote pro-social behaviours and healthy life-styles in schools. The project now has data sets of over 1000 students, 300 teachers, and focus group discussions with parents, students, clerical and ancillary workers, student leaders and structured interviews with principals.

The JBTE/IOE Global Fund project is directed by Mrs. Vileitha Davis-Morrison and coordinated by Mrs. Janice Holung. The initiative is funded by Global Fund Jamaica. The project targeted three teachers’ colleges. For two of the colleges the project focussed on utilising the arts and sports as the medium for HIV and AIDS awareness and stigma reduction. The project trained major stakeholders in skills development, values attitudes behaviour change and life skills methodology and encouraged stakeholders to implement the college workplace policy on Health Promotion /HIV/AIDS. Approximately 800 students, 85 lecturers and administrative staff and 40 student leaders were involved in interactive participatory workshops, seminars and action planning exercises.
Professor Stafford Griffith has served as Director of the Caribbean Centre of Excellence for Teacher Training (CCETT) Project, funded by the United States Agency for International Development (USAID) in the amount of US$6.5 million and developed and administered by the Joint Board of Teacher Education. The project focuses on the improvement of reading in Commonwealth Caribbean countries, targeting students in the early primary school grades, that is, Grades 1-3.

Professor Zellynne Jennings-Craig participated in: a) the assessment of the Antigua State College for the delivery of the UWI School of Education, Cave Hill, Graduate Diploma for Secondary Teachers in Education, April 6 2009 and the Antigua State College (with Office of ERIIC, UWI Open Campus, Jamaica); b) Guyana Basic Education Teacher Training Project Consultant with responsibility for coordination of the writing of modules for The Cyril Potter Distance Education Secondary Academic Programme, July 2008-June 2009; and c) provided consultation for the evaluation of the Curriculum Implementation sub-component in the Jamaica Ministry of Education Youth and Culture, Primary Education Support Project (PESP) End of Project Evaluation.

Dr. Clement Lambert presently directs the JBTE/ e-Learning Project to produce interactive teaching/learning materials for CXC Chemistry, English, Biology and Mathematics. Materials such as daily lesson plans,
teachers’ instructional manuals, students’ instructional manuals for use in classrooms are being created “from scratch”.

Dr. Jossett Lewis Smikle coordinated (a) International Literacy Day celebrations in the Department of Educational Studies, September 8, 2008; (b) Junior Debate International 2009, June 19, 2009; (c) Jamaica Reading Association (JRA) half yearly seminar Read your way to success, February 20, 2009; and (d) Reading Week activities Teaching the nation to succeed, April 26-May 1 (included an address made to students and academic members of staff at the Alpha Primary School).

A team, led by Dr. Moses Peart and including Dr. Halden Morris, is currently conducting a commissioned evaluation of the national e-Learning Jamaica Project in schools across the island.

Dr. Marcia Rainford has been involved collaboratively with Drs. Sadler McKnight and Susan Herbert in projects leading to: a) Innovative Approaches to Science Education Delivery at the Primary, Secondary and Tertiary Levels; and b) A Coaching Model for In-service Teacher Professional Development respectively.

The Science, Mathematics and Information Technology (SMIT) Centre has increased activities this year to achieve its mission to improve the quality of Science, Mathematics and IT teaching and learning in Jamaica and the Caribbean region. Using income-generated funds a Coordinator was employed for one year (beginning February 2009) with the mandate to generate funds, activities and projects to promote the mission of the Centre, through a strategic plan. One its main activities continues to be the Mathematics Problem-Solving competition, a national competition with Grade 9 students from DES’ Science, Maths and IT Centre. Five of the twenty-seven (27) high schools that participated were selected as the best performers. Significant new developments are the development of a degree programme in Maths and Science in the Primary School to be offered initially to Grenada (through blended learning) with funding from the World Bank – starting September 2009 and an MOU arrangement/collaborative arrangement with Reading University in the UK to improve Mathematics and Science teaching in Jamaica, as that institution implements the new schools champion programme in Science and Mathematics. Other initiatives include an Inventors club for keen secondary Science students and interested teachers

INTERNATIONAL COLLABORATION

Visiting Professors

Dr. Peter Joong

The Department of Educational Studies has been working in collaboration with Dr. Peter Joong from Nipissing University, Canada on a number of initiatives. His main partner in the Department was Dr Loraine Cook. Together they have mounted five workshops on Data Analysis which were supported by students and faculty from across the campus. They have carried out a survey of teaching practices in secondary schools across Jamaica entitled “An Investigation into the Perceptions of Teachers and Students in Jamaica on the Implementation of Secondary School Reform.” The preliminary results of this study were presented on March 26 in the SLT to an audience that consisted of academics and principals of various high schools around Jamaica.

Professor Beverley Lindsay

Prof. Beverley Lindsay is Professor and Senior Scientist at Penn State University. She obtained funds from the American Association of Colleges for Teacher Education to conduct a study on “Universities and Global Diversity: Preparing Educators for Tomorrow.” She visited the School twice during the year, gave lectures to graduate students and discussed research activities with staff.
