MESSAGE FROM HEAD OF DEPARTMENT

Welcome to the Department of Economics!

We are committed to providing you the opportunity to gain high quality education. We have a team of academics dedicated to economic research and the promotion of effective learning. Our highly trained administrative staff stand ready to provide support and advice to facilitate a smooth transition from entry into the Department of Economics to graduation.

A major objective of the Department of Economics is to create internationally competitive graduates who are critical thinkers with the ability to competently apply economic tools to address economic problems. In keeping with the strategic objectives of the University of the West Indies we guide our students to become socially responsible graduates with strong ethical values.

Our degrees in Economics, Statistics and Banking and Finance open doors to a wide range of career paths in the public and private sectors. Our graduates have also gained admission to highly ranked universities abroad where they have excelled.

We want our graduates to be well rounded persons so we encourage you to widen your horizons during your time here. It is useful for you to take advantage of the opportunities offered by the free electives to expose yourself to fields other than economics. Joining some of the clubs on campus will help to develop your interpersonal and leadership skills.

While we endeavor to make every effort to advance your education, your success is also dependent on your input. Discipline, hard work, perseverance and a positive attitude will provide the foundation for excellence.

You have entered a world of new opportunities. Grasp them!

Marie Freckleton
FIVE THINGS YOU SHOULD KNOW NOW

1. ORIENTATION AND ACADEMIC ADVISING: The Orientation and Academic Advising scheduled at the start of the academic year are essential to the academic success of students. It provides an opportunity to welcome, engage, and share with students, information relating to their programme of study, course selection, and charting an academic career. As such, attendance at these sessions by newly-admitted students is mandatory.

2. REGISTRATION: Students must register for semester 1 and semester 2 courses at the beginning of each academic year unless they wish to take leave of absence or withdraw voluntarily. It is advisable that students delay registering until they have had a chance to receive academic advising. The courses for which students should register are outlined in the 2018/2019 undergraduate handbook on the Faculty’s website.

3. ENROLMENT STATUS (FULL-TIME/PART-TIME): All students are initially admitted to the Faculty as full-time or part-time students. A new full-time student is required to register for 10 courses in any one academic year while part-time student are required to register for a maximum of 6 courses. Part-time students must complete a minimum of twenty-four (24) credits to be eligible for transfer to full-time. Part-time in the Faculty is defined by a student’s work load per semester and does not mean evening studies. While Level I courses are offered throughout the day and evening, the majority of the courses at Levels II and III are taught during the day only. Thus, students registered part-time must be prepared to attend classes at times between 8am and 5pm.

4. DEFERRAL OF ENTRY: A student who does not wish to commence studies during the semester he/she was admitted or readmitted to the Faculty is not eligible for leave of absence or voluntary withdrawal. Students are advised to inform the Admissions Section of their intention to defer entry.

5. REQUIREMENTS FOR THE AWARD OF DEGREE: In order to qualify for the award of the degree, a student must (i) have completed a minimum of 90 credits (normally equivalent to 30 courses) of which at least thirty credits are from Level I (including the Foundation Course requirements), and at least sixty credits from Levels II & III courses, (ii) have satisfied the requirements of their declared degree programme and (iii) have a weighted/degree GPA not less than 2.0.
GENERAL DEPARTMENTAL GUIDELINES

1. The Department of Economics offers the following undergraduate degrees:
   - Banking and Finance (Major)
   - Economics (Major and Minor)
   - Statistics (Major and Minor)
   - Banking and Finance and Economics (Double Major)
   - Economics and Mathematics (Double Major)
   - Economics and Statistics (Double Major)

2. Where the same course is required for both a Major and a Minor, it is counted only ONCE. Therefore, an additional approved course must also be taken to complete the required total of 60 credits.

3. Students may receive exemption without credit for CAPE subjects if they obtained a Grade I-IV as indicated below. However, students must register for another Level I replacement course(s) of their choosing.

   Accounting [Unit 1] exemption from ACCT1005
   Accounting [Unit 2] exemption from ACCT1003
   Economics [Units 1 & 2] exemption from ECON1000 and/or ECON1012
   Pure Mathematics [Units 1 & 2] exemption from ECON1003
   Sociology [Unit 1] exemption from SOCI1002
   Statistical Analysis/Applied Mathematics [Unit 1] exemption from ECON1005

4. Anti-Requisites: These are courses that cannot be taken together for credit. Students are urged to view the complete list of anti-requisite courses in Part V of the online version of the 2018/2019 Handbook.

5. Plagiarism & Academic Honesty. The Faculty of Social Sciences takes plagiarism and academic honesty very seriously. An Undergraduate Coursework Accountability Statement is to be attached by students to the front of any document submitted as a component of coursework save for when coursework consists of an invigilated examination. Where the submission is entirely in electronic form, the student shall make an equivalent declaration electronically. Statements are available for download on the Faculty’s website).

FACULTY OF SOCIAL SCIENCES GENERAL CODE OF CONDUCT

Preamble
This code has been generated in line with what is believed to be staff and students' general perceptions on what may or may not be considered appropriate conduct, and has been formulated through constant consultation with representatives of the relevant groups. This has been done in recognition of the fact that the faculty and its environs should be associated or seen as being synonymous with activities that uphold the university’s, and by extensions its faculties’, mandate towards the expansion and promotion of pursuits of an academic nature; and that persons therein should aspire to conduct themselves in a manner that may be considered socially acceptable. Therefore, wholesale and/or blatant disregard for the stipulations made herein may result in the application of disciplinary action.

Code of Conduct

(a) Areas surrounding lecture rooms and offices are designated quiet zones. Students shall therefore refrain from engaging in loud conversation or any other noise-generating activity that may cause disturbance. This includes, but is not restricted to singing, recitations, preaching, loud praying, the use of noise-emitting electronic equipment (i.e. radios, phones, etc.), and romping and playing of physical games (e.g. scrimmage). Persons are also to refrain from the use of violent and offensive language.

(b) The Faculty’s space shall be considered as meant for activities of an academic nature. The facilities provided therein should therefore be utilized appropriately and in their rightful fashion.

(c) Persons shall refrain from engaging in behaviour not suited for the Faculty’s space, this includes the restrooms. This takes into account, but is not limited to lying down or sleeping on the furniture, public grooming, and the playing of games such as cards, dominoes and other such board games. Persons shall also refrain from engaging in any activity which amounts to an inappropriate public display of affection.

(d) Persons shall refrain from lingering or congregating along designated pathways in a manner that may obstruct free movement. This includes the sitting on of stairs and railings. Additionally, persons shall avoid walking in or through gardens and related lawns. There shall also be no riding on the pathways, except in the case of disabled persons who utilize mobility aids.
(e) Persons are not to remove furniture from their prescribed locations. This includes removing chairs and/or tables from classrooms, benches from usual positions, etc. An exception may be made in the case where the movement of furniture is necessary to facilitate the instructional programme/process, so long as the furniture is replaced in its original position thereafter.

(f) Persons, in adhering to this General Code of Conduct, shall also be careful to abide by the stipulations of other such Faculty guidelines/policies. These include, but are not limited to the Faculty's Code of Conduct for Instructional Sessions, as well as the Faculty's Notice Posting Policy.
